

# L2 Services

Premium Litigation Support  
*Digitization and Printing Services*

Serving the nation, coast-to-coast, L2 Services is the premier full-service litigation support provider with legal discovery expertise across the entire information and litigation lifecycle.

## Premium Litigation Support from L2 Services

L2 Services helps clients address and manage legal, business, and information technology challenges in all areas of eDiscovery with an end-to-end portfolio of talent and technologies delivered in the form of services and staff supporting audits, investigations, and litigation.

### From Digitization to Printing: Immediate Expert Support

Balancing trial support expertise and litigation support services, L2 Services provides you with comprehensive and immediately accessible digitization and print support in five key areas.

Areas of Offerings	Offering Overview
Scanning	Scanning services range from box tracking and automated indexing to manual and full-text OCR indexing that can be conducted both on-site and off-site.
Coding	Coding services include domestic and off-shore options, automated and manual capabilities, and logical unitization support.
OCR	Optical Character Recognition (OCR) services enable translation of document text images into searchable text while reducing paper storage requirements.
Repro	Reproduction and reprographic services include audio and video digitization and duplication, doc copying, doc binding and mounting, and exhibit preparation.
Presentations	Presentation services provide expertise to help in the preparation and presentation of case materials for depositions, arbitrations, and trials.

L2 Services augments and complements these purpose-driven digital and print capabilities with a team of litigation support and legal discovery professionals completely focused on your success.

## L2 Services | Managing Workplace Transformations

L2 Services helps clients address and manage legal, business, and information technology challenges with an end-to-end portfolio of talent and technologies delivered in the form of services and staff supporting audits, investigations, and litigation. As part of this support, L2 Services provides premium technology and premier talent to help organizations manage workplace transformation ranging from the reduction of physical storage requirements to digitization and archiving of documents.

### Scale Back and Scan Down with L2

An expert at digitally transforming workplaces with our document scanning and archiving services, L2's Scan Down services help strategically convert your paper records into a digital format while also helping to reduce your costly physical storage costs.

With digitization expertise to support large and small on-site and off-site projects, our Scan Down services allow for the coordinated, organized, and trackable translation of paper documents into digital assets while reducing storage space requirements. Additionally, given our core electronic discovery focus, we can archive and store your digital assets in a secure manner and even support paper documents' defensible destruction.
