

The L2 logo is positioned in the top left corner. It features the letters 'L2' in a bold, white, sans-serif font. The background of the entire slide is a dark, moody photograph of a courtroom. In the foreground, a wooden gavel rests on a surface. To the left, a pair of brass scales of justice is visible. In the background, a person in a dark suit is partially visible, and a hand is seen resting on a document. A large, semi-transparent blue triangle is overlaid on the right side of the image, containing the main text.

# **L2 Services**

Premium Litigation  
Support  
**Discovery Services**

Serving the nation, coast-to-coast, L2 Services is the premier full-service litigation support provider with legal discovery expertise across the entire information and litigation lifecycle.

## Premium Litigation Support for All Your Legal Discovery Needs

Combining the most advanced technologies, best practice processes, and legal discovery expertise, L2 Services portfolio of legal discovery services provide legal professionals with a comprehensive set of tools to directly address complex discovery challenges. Whether supporting advanced ESI requirements or traditional paper needs, L2 Services delivers robust and rapid capabilities that decrease the time, risk, and cost challenges faced by law firms, corporations, and governmental departments during audits, investigations, and litigation.

# Three Core eDiscovery Service Areas of Focus

L2 Services supports clients primarily by helping them address the three core legal discovery tasks of collection, processing, and review.

## Collection

Collection consists of locating potential sources of ESI following the receipt of a demand to produce electronic documents and data and gathering ESI for further use in the eDiscovery process, such as processing or review.

## Processing

Processing is reducing the volume of collected ESI through automated processing techniques, modifying it if necessary to forms more suitable for review, analysis, and other tasks.

## Review

Review is evaluating digital information to identify relevant and responsive documents to produce, and privileged documents or confidential or sensitive information to withhold.

From these core areas of focus, L2 Services delivers a complete portfolio of nine specific service offerings designed to meet both the digital and print needs of legal discovery professionals.

# L2 Services | A Complete Portfolio of Legal Discovery Services

L2 Services helps clients address and manage legal, business, and information technology challenges in each of the three core areas of eDiscovery with an end-to-end portfolio of talent and technologies delivered in the form of services and staff supporting audits, investigations, and litigation. As part of this support, L2 Services provides premium technology and premier talent to support case, project, and program requirements following proven best practices.

The building blocks of the L2 Services offering portfolio, a portfolio that can be delivered as discrete services or as part of a managed service offering, include nine primary services.
